Your Project, Our Passion

Class A Contractor

WELCOME TO Global Force Projects

Hello There,

As a Virginia Class A licensed construction contractor, we provide commercial and residential construction services across the Hampton Roads region, supporting general contractors, property managers, and institutions with dependable execution and professional project delivery.

With experience across university facilities, multi-building renovations, and commercial properties, Global Force Projects brings a hands-on approach, skilled crews, and a strong commitment to quality and safety.

When I founded Global Force Projects in 2022, my goal was to build a construction company grounded in trust, accountability, and quality workmanship. With experience leading multiple businesses, I've learned that successful projects are built on clear communication, reliable execution, and strong partnerships.

At Global Force Projects, we approach every job—residential or institutional—with the same commitment to quality, safety, and on-time delivery. We value long-term relationships and look forward to the opportunity to work together.

Felipe Gomez
Founder & CEO
Global Force Projects

About Company

Global Force Projects is a commercial contractor specializing in institutional and office projects across the Hampton Roads region. We deliver integrated scopes including metal framing, drywall and finishing, acoustical ceiling systems (ACT and hard lid), building envelope services (roofing & siding), carpentry, painting, and post-construction support such as cleaning and punch lists, partnering with general contractors and property managers to ensure reliable execution and on-time results.

OUR VALUES

We are driven by trust, transparency, and accountability, delivering quality work through clear communication and reliable results”.

VISION

To be recognized as a trusted construction partner across Virginia, known for integrity, reliability, and continuous improvement. We build long-term relationships through professionalism and consistent performance.

MISSION

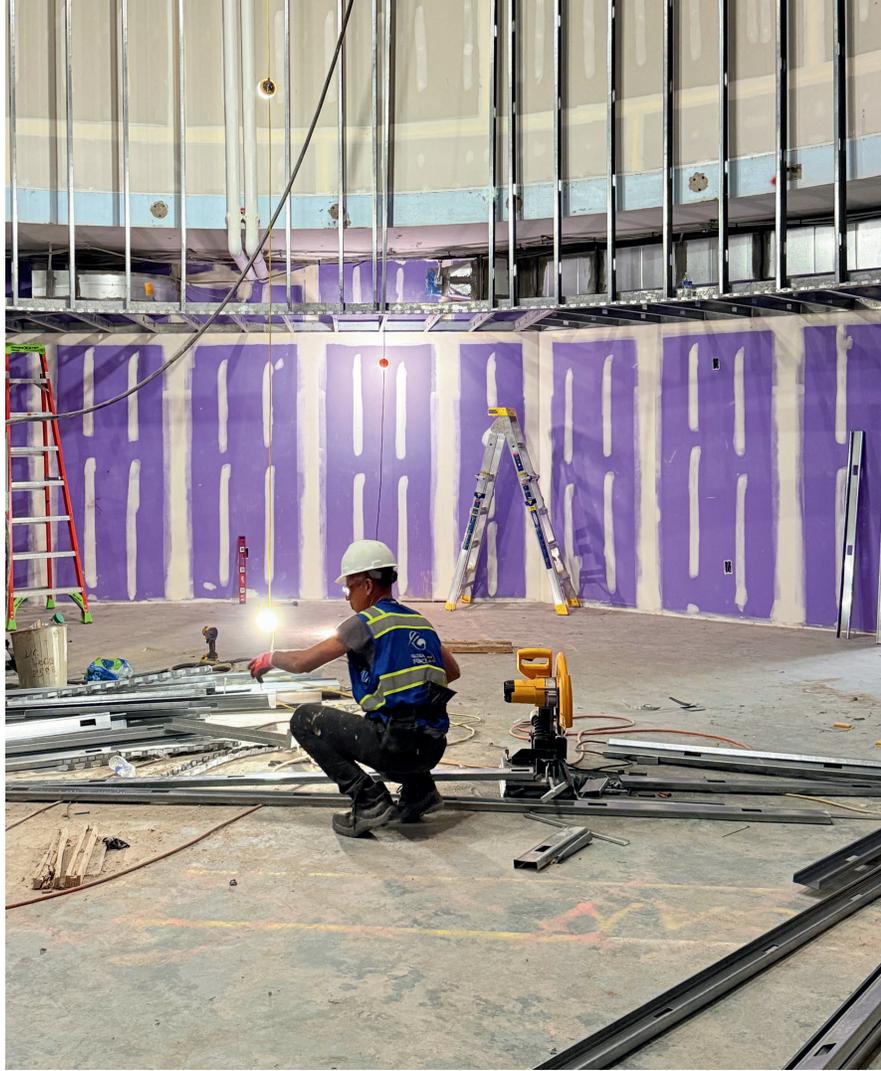

To deliver high-quality construction and renovation services through reliable execution, strong project management, and clear communication. We prioritize safety, craftsmanship, and on-time results.

Why work with us

Global Force Projects delivers a structured, hands-on approach to commercial and residential construction. We work closely with general contractors and property managers to manage multiple trades under one coordinated scope, reducing vendor coordination and simplifying project execution.

Our team is experienced in working within active and occupied properties, prioritizing safety, clear communication, field supervision, and schedule-driven performance to deliver durable, high-quality results.

The key factors that set our work apart.

Commercial Experience:
Proven experience working on commercial and institutional properties, including occupied buildings and active sites.

Schedule-Driven Execution:
Projects planned and executed to meet timelines while minimizing disruption to daily operations.

Multi-Trade Solutions:
Ability to manage and execute multiple trades under one coordinated scope, reducing the need for multiple vendors and simplifying project oversight.

Accountability
Virginia Class A licensed contractor committed to professional standards and long-term results.

Core Construction Services

Framing & Structural Work

Structural framing solutions for commercial and residential projects, ensuring strength, precision, and code compliance from the ground up.

Demolition & Renovations

Safe and efficient demolition and renovation services supporting remodels, upgrades, and large-scale property improvements.

Roofing & Sheathing Systems

Complete roofing and sheathing installations designed for durability, weather resistance, and long-term performance.

Windows, Doors & Openings

Installation and replacement of windows, doors, and structural openings to improve functionality, efficiency, and appearance.

Drywall Installation & Finishing

Professional drywall installation and level five finishing services delivering clean lines, smooth surfaces, and high-quality interiors.

Insulation, Brick & Interior Finishes

High-quality insulation, brick work, and interior finishes completed with attention to detail and craftsmanship.
